This is Propaganda Gal Greta,

Goose-stepping to the

Global fear campaign. Not even old enough to judge right.

Ignorant enough to spread LIES.

What a waste of youth. The shame on her handlers. They are all in the doctrine of (they believe a lie, we will not die). Greta spread lies for her handlers and

they get the monies from their own people like slaves. All the people have to do is entertain the lie and the people will pay. The ignorant pay for ALL lies entertained or believed like the slaves they are. #prepare-for-water
